1. PARKING:

There are about 20 spaces in the nearby carpark. It is about 25 metres from the entrance, has no disabled bays and has no dropped kerbs. But it is possible to use a wheelchair to get from the park.

2. ACCESSIBILITY: EXTERNAL:

The surface to the entrance is mainly tarmac and concrete slabs and there is a slight incline. There is a ramp up to automatic doors and single railings are by the side of the ramp, so wheelchair access is easily possible. The ramp is not too steep.

3. ACCESSIBILITY: INTERNAL:

There is only one floor level which is carpeted. Visual and hearing impairments are catered for and guide dogs are more than welcome. Wheelchair access around the interior of the library is difficult but the service can be brought to the customer when necessary
